Manuel Gudiño

mgudinocontacto@gmail.com

Software Developer focused on crafting top-notch fullstack applications from scratch. My passion for problem-solving and acquiring knowledge drives me to deliver tailored and outstanding projects.

Next.js | React | TypeScript | Tailwind CSS | Prisma | PostgreSQL

EXPERIENCE

JustProats   July 2023 - Present

Built a fully customised Shopify Store from scratch, as the new site for the business.
- Designed and branded a tailored custom theme to fit the company's needs.
- Made a bundle subscription system using Recharge Payments API.
- Focused on making the store customizable and automated through the Shopify CMS.
- Improved site performance by over 50 points.

Skills: Recharge Payments · Shopify Liquid · Tailwind CSS · React.js

Talking Cart   June 2023 - July 2023

Built key functionalities & UX of the chatbot. Engineered the backend to handle & optimise the "brain" logic.
- Worked with OpenAI API to recommend Amazon products based on user's input
- Developed an endpoint to get Amazon API products based on search keywords
- Made the logic to select a specific marketplace from 9 different regions according to user's location
- Designed an intuitive and user friendly interface

Skills: Problem Solving · Artificial Intelligence (AI) · Tailwind CSS · Next.js

PROJECTS

Portfolio   Aug 2023

Personal Portfolio where I showcase my work, projects and skills. Made with SvelteKit.

Blog   May 2023

Personal blog made with Next.js 13, Contentlayer, rehypePlugins and TailwindCSS, where I share my experiences and ideas.
